

## 51R24 FRONT/BACK LABEL INSPECTION

The 51R24 provides a two-sided label inspection and tamper resistant shrink band detection for beverages, sauces, and household goods. With a multi-camera inspection at speeds up to 700 containers per minute, this system accurately detects label and labeling errors to ensure your product best represents itself and your brand on the retail store shelf.

### INSPECTIONS INCLUDE:

Label Folds and Tears

Spliced, Skewed, Wrong, or Missing Labels

Detection of Heat-Shrink Wrap Over Caps

Label Height and Other Application Defects

The world's most trusted brands trust us to help grow their business

### WHY CHOOSE THE SILGAN VISION 51R24?

**It Works:** 100% product inspection prevents defects from going downstream

**Efficient:** System intelligence prevents poor product runs that result in costly spoilage

**Easy to Use:** User interface simplifies operation changeover and set up of new jobs

**Durable:** Stainless steel, NEMA4X design withstands food & beverage plant environments

**Compact:** Installs easily over existing conveyor and saves valuable floor space

**No Hassle:** Fully supported by the Silgan Vision Technical and Customer Service Teams
