

6R25 HOPPER

The 6R25 Hopper features a magnetic disc which feeds both right side up and upside down caps to the cap turnover where they are correctly oriented. This process provides up to 50% more output. The hopper can be capper mounted or remotely mounted to suit specific line requirements.

FEATURES:

[Electronic Motion Control, Gentle Cap Handling](#)

[Hopper Can Mount to a Capper](#)

[Dial-A-Cap Selector Allows Fast and Easy Changeovers](#)

[Delivers All of Silgan Metal Closures](#)

The world's most trusted brands trust us to help grow their business

WHY CHOOSE THE SILGAN 6R25 HOPPER?

Efficient: Large capacity bin reduces refilling labor requirements and adjustable cap metering gate ensures consistent cap output

Durable: Stainless steel disc with an anodized aluminum Teflon coated drum

Easy to Use: Simple setup and adjustment, control and cap motion sensor provides automatic starting and stopping of the hopper

Speed: Cap turnover orients caps for smooth high speed delivery

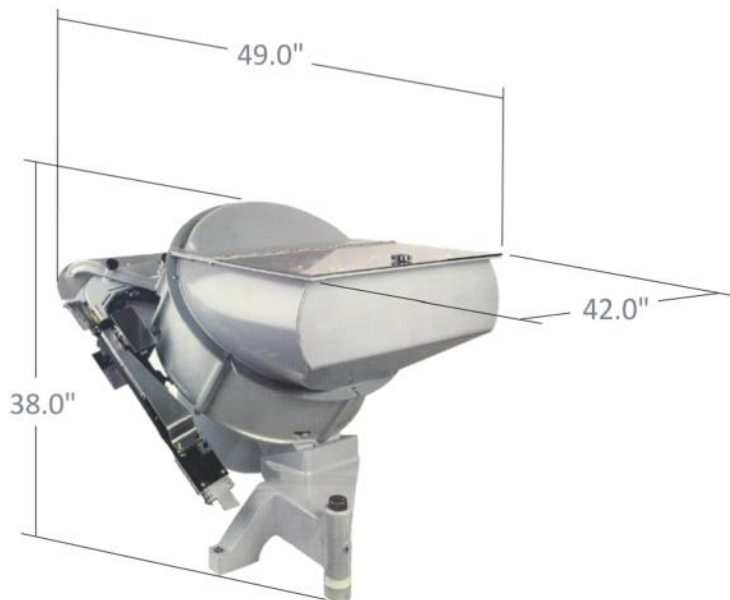

No Hassle: Fully supported by Silgan Equipment capping experts
