

51R56 CAP-ON-BOTTLE INSPECTION

The 51R56 is our latest model in a long line of closure inspection solutions. It is perfect for inspecting all beverage containers along with food and household products. At speeds up to 800 containers per minute, this system performs a 360-degree inspection for cap and application defects.

INSPECTIONS INCLUDE:

Cocked, Loose, Tight, Skewed, and Missing Caps

Tucked, Broken, and Missing Tamper Bands

Low Fill Levels

Cap Color and Other Inspections as Specified

The world's most trusted brands trust us to help grow their business

WHY CHOOSE THE SILGAN VISION 51R56?

It Works: 100% product inspection prevents defects from going downstream

Efficient: System intelligence prevents poor product runs that result in costly spoilage

Easy to Use: User interface simplifies operation changeover and set up of new jobs

Durable: Stainless steel, NEMA4X design withstands food & beverage plant environments

Compact: Installs easily over existing conveyor and saves valuable floor space

No Hassle: Fully supported by the Silgan Vision Technical and Customer Service Teams
