The 6R25 Hopper features a magnetic disc which feeds both right side up and upside down caps to the cap turnover where they are correctly oriented. This process provides up to 50% more output. The hopper can be capper mounted or remotely mounted to suit specific line requirements.

**FEATURES:**

- Electronic Motion Control, Gentle Cap Handling
- Hopper Can Mount to a Capper
- Dial-A-Cap Selector Allows Fast and Easy Changeovers
- Delivers All of Silgan Metal Closures

**WHY CHOOSE THE SILGAN 6R25 HOPPER?**

**Efficient:** Large capacity bin reduces refilling labor requirements and adjustable cap metering gate ensures consistent cap output

**Durable:** Stainless steel disc with an anodized aluminum Teflon coated drum

**Easy to Use:** Simple setup and adjustment, control and cap motion sensor provides automatic starting and stopping of the hopper

**Speed:** Cap turnover orients caps for smooth high speed delivery

**No Hassle:** Fully supported by Silgan Equipment capping experts
