

51R56 CAP-ON-BOTTLE INSPECTION

The 51R56 is our latest model in a long line of closure inspection solutions. It is perfect for inspecting all beverage containers along with food and household products. At speeds up to 800 containers per minute, this system performs a 360-degree inspection for cap and application defects.

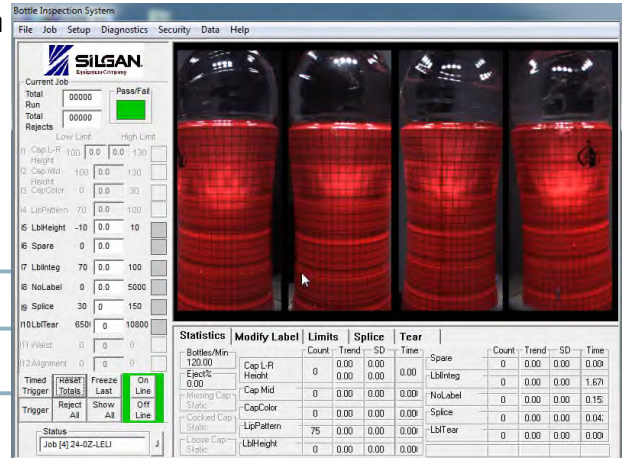

INSPECTIONS INCLUDE:

Cocked, Loose, Tight, Skewed, and Missing Caps

Tucked, Broken, and Missing Tamper Bands

Low Fill Levels

Cap Color and Other Inspections as Specified

The world's most trusted brands trust Silgan to be their Partner for Innovation

WHY CHOOSE THE SILGAN 51R56?

Simplicity: Installs easily over existing conveyor, saving valuable floor space. The user interface simplifies changeovers and new job setups.

Efficiency: 100% product inspection prevents defects from going downstream. The proprietary system intelligence prevents poor product runs that result in costly spoilage.

Reliability: The stainless steel, NEMA 4X design, withstands food and beverage plant environments. Our dedicated technical service team is there for all your inspection needs and our optional service agreement program makes it all hassle-free.
